Good Morning,

Attached, please find a copy of the crime update for the week ending 10/15/16 for LAPD Basic Car Area 3A19. This reporting area includes North University Park, El Salvador Community Corridor, and adjacent communities.

In the past week, we had a decrease in violent crime, and of the six violent crimes, half resulted in arrests. Both vehicles stolen have been located and one of the vehicles was recovered outside the City of Los Angeles with an arrest of one suspect.

As we have seen for the past several weeks, a majority of bikes stolen were secured with some type of lock. As a preventive measure, try using more than one locking device so that it may take twice as long for someone to steal your bicycle. Before investing in a new locking device, do your research by visiting a reputable bicycle shop.

Please be extra careful when walking in public areas, especially when using your cell phone. Be aware of your surroundings, and try to walk in areas that are well-traveled by others. Walking on the sidewalk with oncoming traffic coming towards you may give you more of a heads up if a suspect vehicle pulls over suddenly. For further crime prevention tips, please refer to the attached document.

Be sure to buy your discounted ride tickets for our community carnival (Oct 28-30). The tickets are for sale in our Community Relations Office.

Tip of the Week: If you have a bus shelter in your community that needs any type of repair or cleaning (e.g. broken bench, litter, graffiti, etc), please contact Shelter Clean at 866-633-0068 or [info@shelterclean.com](mailto:info@shelterclean.com).

Please let me know if you have any questions or if there are any specific areas of concern in the community.

Sincerely,  
Paul
